

Let the music guide you.

Music is powerful, it touches our hearts
it can make us feel different right from the start.

happy songs can make us feel so high,
sad melodies can make us want to cry.

The rhythm runs through our veins,
setting free the thoughts that words can't explain.

With each note a feeling starts to unfold,
awaking memories, stories untold.

In the rhythm you will find,
a language that touches hearts and minds

Let the music guide you,
it helps to let your dreams come true
